SUMMARY

Backend engineer with 5 years of experience building scalable APIs and cloud services.

EXPERIENCE

Software Engineer, Acme Corp

2021 - 2024

- Built REST APIs with Python and FastAPI serving over 50,000 daily users
- Reduced average response latency by 40% by introducing Redis caching
- Deployed containerized services with Docker on AWS, cutting deploy time by 60%
- Collaborated with cross-functional teams to design new product features
- Automated CI/CD pipelines with GitHub Actions, reducing release cycle from days to hours

Junior Developer, Beta Inc

2019 - 2021

- Developed internal tools in Python and SQL to automate reporting
- Wrote unit tests achieving 85% code coverage

EDUCATION

BSc in Computer Science, State University, 2019

SKILLS

Python, SQL, PostgreSQL, Docker, AWS, Git, FastAPI, Agile, Redis

PROJECTS

Personal Finance Tracker - Flask app with PostgreSQL backend, deployed on AWS
